

Web Developer

The Chartered Institute for Securities and Investment is the leading Chartered Professional Body for Securities and Investment Professionals globally.

CISI's purpose is *"To champion lifelong learning and integrity, raising individual standards of knowledge, skills and behaviour globally to enhance public trust and confidence in financial services."*

Headquartered, in United Kingdom and established almost 30 years ago, is having, net reserves worth over Rupees 3 Billion (30,000 lakhs) and a workforce of over 170 staff globally.

Colombo is the Institute's key operational hub, outside London, creating cutting edge application solutions to our clientele consisting of our members and leading financial centers worldwide.

CISI's Marketing and Communications team is experienced, diverse and fun-to-work with. There are over 20 people based in three countries and operating across eight international offices. Our cross-functional scope combines multiple activities such as Strategy and Operational Marketing, Media and Communications, Web design and development, Design, Commercial Events, Video Production and Editorial and Content Marketing.

We are looking for a dynamic and dedicated web developer to work within our in-house web development team on a full-time basis, based in our Colombo office.

You will be part of an international team – supporting the head of the department based in London and supervising the work of two junior web developers based in Sri Lanka. The ability to communicate effectively, work autonomously and be confident with being managed virtually is essential for this role.

You will have a range of responsibilities including:

- Updating and maintaining existing websites using our large-scale CMS (Sitefinity)
- Working with the head of web development and wider marketing team on design and specification of new projects
- Creating new websites, online platforms and microsites and from design stage through to fully functional responsive websites
- Working alongside our software development team on collaborative projects and troubleshooting website errors
- Supervising the work of two junior developers

We are looking for candidates with the following key skills and experience required

- A passion for web innovation and an eagerness to learn
- A readiness to embrace and use new approaches and to keep up to date with industry advances
- Excellent understanding of HTML5, CSS and JavaScript
- Excellent understanding of Bootstrap, Flexbox and other mobile first responsive development methodologies
- Excellent attention to detail and able to produce pixel perfect code
- Experience with jQuery and other front-end JavaScript libraries
- Understanding of REST APIs and SOAP web services
- Experience using Visual Studio Code and GIT version control
- Experience working with large scale CMS's
- Excellent communication skills and fluent in English
- Thorough understanding of the Microsoft Office suite
- Able to work autonomously, managing your own workload and working to deadlines
- Able to supervise the work and provide feedback to junior developers
- Able to use own initiative to find solutions to problems

We would be interested if candidates have any of the following desirable skills

- Experience with Adobe Photoshop and preparing assets for the web
- Awareness of or experience using Sitefinity CMS
- Experience using Google Analytics to analyse and report on site behaviour
- Understanding of React or Vue JavaScript libraries
- Understanding of the principles of web accessibility
- An interest in creative design and animation

Please let us know if you speak an additional language such as Spanish, Mandarin or Arabic.

The offer of employment will be subject to satisfactory references including a police report.

There will be a competitive remuneration package on offer which includes after probation period:

- A friendly work environment and training throughout the career path
- Medical benefits
- Insurance Cover
- Travel Allowance
- Sports club allowance

If you believe that you are the ideal person, please send us your resume to hr@cisi.org stating the position applied on the subject field.
