Associate Software Engineer

(Working hours 9am to 6pm each day, Monday to Friday)

Headquartered in the United Kingdom and established 30 years ago, the Institute, which is also a registered charity, has a global workforce of over 180 staff and net reserves of over Rupees 3 billion (30,000 lakhs).

Colombo is the Institute’s key operational hub outside London, which creates cutting edge application solutions to help members working in the UK for leading worldwide financial firms.

We offer a friendly work environment, with a good work/life balance, working Monday to Friday to our team of over 30 IT Software Professionals.

We are looking for talented individuals with the following qualifications, skills, and experience to:

- Excellent English verbal and written communication skills.
- Degree in Computer Science or equivalent, from a recognised university or institute.
- 6 months (minimum) experience after graduating.
- Also, knowledge of HTML5, CSS3, JavaScript, jQuery.
- Familiarity with agile software development methodologies (SCRUM) with Test Driven Development (TDD).
- Good working knowledge in SQL Server technologies with hands on experience in TSQL query writing.
- Familiarity with version control systems like Azure DevOps with GIT.
- Experience in developing cross-platform mobile applications using Xamarin Forms will be considered as an added advantage.
- Able to work independently with minimum supervision.
- Experience of SSRS Reporting would be an advantage.
- Experience of working for a global organisation is an added advantage.

The role with us has a lot of variety and you will be:

- Developing and supporting CISI’s applications
- Analysing issues, designing, and building solutions to the issues, proactively identifying and fixing application code.
- Designing/writing test scripts and conducting regression testing, when required.
Following industry standards for supporting software applications, including strict version control, code peer group reviews, documentation of code, standard naming conventions on all database tables/fields, etc.
- This is software development for resolving 2nd / 3rd level application fixes.

Why should you work for us?

You will be working in modern premises in the heart of Colombo’s commercial district, in a friendly company with a good work/life balance, and the office is closed on Poya days.

We also provide our employees with:
- Relevant training
- A competitive remuneration package
- The following benefits on completion of your probation period.
  - Medical benefits
  - Insurance Cover
  - Travel Allowance
  - Sports club subsidy

Please send us your CV, with details of the technologies you have used at work, and your salary expectations to careers@cisi.org by 12 July 2021.
